

Fellowship in Breast Oncosurgery (2 years, full time)

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighbouring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. The hospital was designed by Cannon Design, a renowned architectural firm from North America. It is located on 13 acres of land at New Town in Kolkata, West Bengal.

The Hospital, with a capacity of 437 beds, serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research. To fulfil the above objectives, TMC invites applications for the position of Fellow in Breast Oncosurgery.

Qualification:

MS (General Surgery) or DNB (General Surgery) or MRCS with two years of experience in General Surgery

Tenure/ Duration of the Fellowship Programme:

Two Years

Details:

This post offers comprehensive training in breast oncological surgery in a busy unit that sees about 1000 new breast cancers each year. The candidate is expected to have a broad understanding of the multidisciplinary management of breast cancer. Clinical responsibilities of the post will include regular outpatient clinics, in which both new and follow up patients will be seen, inpatient ward rounds and night on-call commitments on the Surgical Oncology rota. There will be ample opportunity to attend operating sessions. Wide-ranging training will be provided in breast surgery, including management of impalpable lesions and all approaches to breast conservation, including pedicled flaps and implant reconstruction. The candidate will be expected to present patients for discussion at the weekly MDT meeting and will also make presentations at other clinical and academic meetings. Research is encouraged, and support for clinical study may be provided for suitable projects.

Prospective candidates are encouraged to contact one of the following consultants to discuss the post:

Dr Rosina Ahmed, 9830108211, email: rosina.ahmed@tmckolkata.com

Dr Abhishek Sharma, 9928851074, email: abhishek.sharma@tmckolkata.com
