

Fellowship & PDCC in Oncopathology

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighboring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. With a capacity of 437 beds, it serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research. TMC is running many academic Programmes and has entered into institutional collaborations in education, research, and outreach Programmes in the field of interdisciplinary medical, research and technology.

The course is aimed to provide a comprehensive understanding of the pathology of neoplastic diseases, with an emphasis on diagnosis and reporting to help in multidisciplinary care.

Job Description:

- During the two years, Fellows will be exposed to different systems in histopathology like GI, GU, GYN, Head and Neck, Breast, Bone and Soft tissue, Pulmonary, Skin, Brain and Hematolymphoid system. In addition they will have to see cytology slides that include FNAC, fluid cytology and Gynecology related smears.
- The fellow will be responsible for gross examination of specimens and perform non-guided FNACs and on-site adequacy assessment of guided aspirations.
- The fellow will review the histopathology and cytology cases first without the faculty, and attempt to render diagnoses. Final discussion and sign-out with the faculty will follow on a multi-headed microscope.
- The fellow will learn interpreting ancillary techniques (immunohistochemistry, special stains, molecular and cytogenetic tests) required for a comprehensive report including minimum dataset parameters, along with pathology staging and appropriate biomarkers to guide clinical management.
- The fellow will prepare, present, and discuss cases at interdepartmental conferences.
- Fellows will need to be actively involved in various quality control processes in the lab and adhere to NABL accreditation related practices.
- The programme also aims to provide an overview of molecular and cytogenetic techniques used in current diagnostic practice, for which one month posting to these departments will be considered subject to prevailing conditions in histopathology at the given time (availability of adequate number of Fellows / work load etc).
- The fellow will be required to participate in research projects, present in national conferences and publish meaningful, audits, case report and original research papers.

From 2017 onwards, Tata Medical Center has started conducting **Post Doctoral Certificate Course /Fellowship (PDCC) in Oncopathology (including Histopathology and Cytology)** under the aegis of the **Indian College of Pathologists (ICP)** (vide Ref: ICP/PDCC/PR/TMC/2017/1, Dated : 9th February 2017).

The PDCC course is for one year and will commence from 2nd year of fellowship. This is optional and candidates will be selected based on their performance in the first year.

Evaluation:

In addition to a continuous process of informal departmental reviews by the reporting consultants, the fellows will be assessed by annual formal written (theory) and practical (slide based) assessments.

PDCC fellows will be reviewed by a formal assessment by an external examiner at the end of their tenure and will have to submit their thesis/dissertation before the assessment.

In order to fulfill the above objectives, TMC invites applications for **Fellowship & PDCC in Oncopathology:**

Qualification: -

MD Pathology or equivalent in the relevant specialty

Experience: Fresh MD/DNB or Equivalent

Duration: Two Years (extendable up to 3 years on a yearly basis based upon performance)
