2. Title of the study: A Phase 1, Open Label, Dose Escalation, Multicenter, First-in-Human (FIH) Study Evaluating the Safety, Pharmacokinetics and Pharmacodynamics of Oral AUR112 in Patients with Relapsed Advanced Lymphoma (ADITI-1).

Conceptualised in the year 2004 as a philanthropic initiative for the Eastern and North- Eastern parts of India and the neighbouring countries, the Tata Medical Centre (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. Set up at a cost of more than 500 crores, the Hospital, with a capacity of 450 beds, serves all sections of the society, with a proportion of the infrastructure earmarked for free/subsidized treatment for the underprivileged sections. The hospital provides a wide spectrum of services from diagnosis, therapy to rehabilitation and palliative support in cancer. The Institution's objective is to excel in service, education and research.

TMC invites applications for the position of Clinical Research Coordinators under the above two study sponsored by CRO- Cliantha Research & CRO- Raptim Research respectively.
