

Fellowship – Clinical Nutrition in Oncology

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighbouring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. The hospital was designed by Cannon Design, a renowned architectural firm from North America. It is located on 13 acres of land at New Town in Kolkata, West Bengal.

The Hospital, with a capacity of 437 beds, serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research.

The department of Clinical Nutrition in Tata Medical Center delivers evidence-based individualized nutrition care to patients with cancer. This is an active department providing nutrition consultations to patients diagnosed with all types of cancers at different point of their treatment.

Clinical nutritionists provide nutrition intervention to patients both in the in-patient and out-patients setting on referral basis as per protocol. Nutrition assessment, intervention and follow up are all documented on electronic hospital management system. They actively take part in intra-departmental teaching and knowledge sharing sessions.

ACIEVEMENTS:

- Published multiple papers in journals
- Invited in different national and international scientific meetings
- Participated in different teaching programs within the hospital

To fulfil the above objectives, Tata Medical Center invites applications for **Fellowship in Clinical Nutrition – Oncology**
