

Clinical Associate GI – HPB Surgery (Upper GI services)

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighboring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. The hospital was designed by Cannon Design, a renowned architectural firm from North America. It is located on 13 acres of land at New Town in Kolkata, West Bengal.

The hospital is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and contemporary medical equipment. The Hospital, with a capacity of 437 beds, serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research.

Program highlights:

The division of GI surgery has been broadly divided into *HPB surgery, Colorectal and Foregut (Upper GI)*. We are high volume center for pancreatic resection, major liver resection, esophagectomy and laparoscopic colorectal resection and retroperitoneal sarcoma in eastern India. A robotic surgery program is successfully started and running with high volume in GI services.

The departmental clinical and academic work load is increasing significantly in recent times. To cater the services, the department has decided to recruit Clinical associate in each subspecialties (HPB, Colorectal and Upper GI). The clinical associate will work as bridge between Fellows and consultants and will work in tandem with the respective consultant. The clinical associate is required to operate and manage the patient independently under the supervision of respective consultant.

Duration:

1 year, full time. Interim assessment will be done after 6 months and the continuation of next 6 months will depend on the performance.

Qualification: -

DrNB/Mch in GI-HPB Surgery or Surgical Oncology.

MS / DNB General Surgery with Post Doctrual Fellowship in OncoGI Surgery or Surgical Oncology (At least 2 years).
