

Fellow – GI – HPB Surgery

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighboring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. The hospital was designed by Cannon Design, a renowned architectural firm from North America. It is located on 13 acres of land at New Town in Kolkata, West Bengal.

The hospital is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and contemporary medical equipment. The Hospital, with a capacity of 437 beds, serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research.

Tata Medical Center, Kolkata, has strived to be one of the leading cancer care and research institutions in the country and has benefited West Bengal as well as the adjoining states and neighbouring countries.

TMC is also running many academic programmes and has entered into institutional collaborations in education, research, and outreach programmes in the field of interdisciplinary medical, research and technology.

Program highlights:

The division of GI surgery has been broadly divided into **HPB surgery, Colorectal** and **Foregut**. We are high volume center for pancreatic resection, major liver resection, esophagectomy and laparoscopic colorectal resection in eastern India. We have performed the first totally laparoscopic major hepatectomy and first HIPEC for peritoneal cancer in eastern India. A robotic surgery program will start in due course. There is significant hands-on exposure for fellows. Fellows are also encouraged to participate in journal Club, MDT, mortality meet and presentation in conference. An observership at TMH Mumbai or any other suitable center may be included in the fellowship program.

Duration:

2 years, full time, extendable to 3rd year as per availability of seat and performance.

Qualification: -

MS / DNB General Surgery, fresh DNB (GI surgery) can also apply.
