

Consultant- Digestive Diseases

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighbouring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. The hospital was designed by Cannon Design, a renowned architectural firm from North America. It is located on 13 acres of land at New Town in Kolkata, West Bengal.

The Hospital, with a capacity of 437 beds, serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research.

Tata Medical Center, Kolkata, has strived to be one of the leading cancer care and research institutions in the country and has benefited West Bengal as well as the adjoining states and neighbouring countries.

TMC is also running many academic programmes and has entered into institutional collaborations in education, research, and outreach Programmes in the field of interdisciplinary medical, research and technology

About the Department:

The Digestive Diseases department at the Tata Medical Center is a referral center for GI and Liver Malignancies. Benign cases are also seen and managed in the OPD. The unit performs all types of basic diagnostic (Gastroscopy, Colonoscopy) and advanced therapeutic endoscopic procedures (ERCP, EUS, endo-luminal stenting, endoscopic resections (ESDs EMRs)). The department functions closely with the Department of GI Surgery, Interventional Radiology and Nutrition. There is a weekly GI multi-disciplinary team meeting where all cases are discussed. The endoscopic suite at the TMC is equipped with the latest Olympus and Fuji equipment.

In order to fulfil the above needs, we are looking to appoint young and proactive clinical consultants as full-time faculty who will contribute as

- **Consultant – Digestive Diseases**

Qualification: -
