

Consultant- Anaesthesia

Conceptualized in the year 2004 as a philanthropic initiative for the Eastern and North-Eastern parts of India and the neighbouring countries, the Tata Medical Center (TMC) started operations in Kolkata on May 16, 2011. The hospital is governed by a charitable trust – Tata Medical Centre Trust. It is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and the most contemporary medical equipment. The hospital was designed by Cannon Design, a renowned architectural firm from North America. It is located on 13 acres of land at New Town in Kolkata, West Bengal.

The hospital is an integrated Oncology facility with well-trained professional staff and equipped with modern facilities and contemporary medical equipment. The Hospital, with a capacity of 431 beds, serves all sections of the society, with 75% of the infrastructure earmarked for subsidized treatment for the underprivileged sections. It provides a wide spectrum of services from diagnosis and therapy to rehabilitation and palliative support. The Institution's objective is to excel in service, education and research.

This state-of-the-art Hospital has been built on carefully landscaped grounds to emphasize the holistic approach in our crusade against cancer. The buildings were designed by Cannon Design, a renowned architectural firm from North America.

Diagnosis and treatment are characterized by a multi-disciplinary approach with Disease Management Teams, wherein experts from different streams participate in decision-making for treatment protocols, using evidence-based medical strategies and appropriate documented clinical guidelines.

Tata Medical Center, Kolkata, has strived to be one of the leading cancer care and research institutions in the country and has benefited West Bengal as well as the adjoining states and neighbouring countries.

ABOUT THE DEPARTMENT

The mission of the department of anesthesiology, critical care and pain medicine in the hospital is to provide state-of-the art anaesthesia services, perioperative care, pain management, life-support for cancer patients in intensive care. The department provides comprehensive anesthesia care right from preoperative evaluation in the pre-anesthesia clinic, surgery in the operating room and postoperative care in the post anesthesia care unit/HDU/intensive care. The department also provides acute pain services in the hospital and pain management for chronic cancer related pain on both as out-patient as well as in-patient basis. The Department conducts regular academic sessions including Journal clubs, seminars and case presentations. Regular state-level/national level workshops and CMEs are organized in association with ISA(WB) and ISCCM(WB). Point of care ultrasound is routinely used for vascular access and nerve blocks for interventional pain management. We have a 5 bedded Level1 ITU, 6 bedded surgical ICU and a 5 bedded HDU/step down which provides state-of-the art cardio-respiratory care, advanced intensive physiological monitoring, renal support to immunocompromised patients after chemotherapy and bone marrow transplant. The department conducts a 2 years (extendable upto 3 years for selected candidates) post graduate fellowship programme in Onco-anaesthesia, critical care and pain which is now accredited by the Indian College of Anaesthesiologists (ICA).

In order to fulfill additional needs, we are looking to appoint full time:
