

CURRICULUM VITAE

Name: Dr Dibakar Podder

Gender: Male

Designation: Consultant, Dept of Clinical Hematology and Cellular therapies, Tata Medical Centre

E-mail: dibakar.podder@tmckolkata.com; dibakar.hematology@gmail.com

Education

MBBS, Agartala Government Medical College, Agartala

August 2005 — January 2010

MD (Pathology), Kasturba Medical College, Manipal, Udupi

May 2012 — May 2015

**Post-Doctoral Fellowship Clinical Hematology and Stem cell transplant,
Tata Medical Center, Kolkata**

February 2016 — June 2018

DM (Clinical Hematology), Medical College and Hospital, Kolkata

August 2018 — August 2021

Professional Experience

Assistant Professor (Tripura Medical College), Tripura

September 2016 — February 2016

Department of Pathology

Junior Consultant (CNCI), Kolkata

October 2021 — February 2022

Department of Hematology-Oncology

Clinical Associate (Tata Medical Center), Kolkata

March 2022 — December 2022

Department of Clinical Hematology and Cellular Therapies

Junior Consultant, Kolkata

January 2023 — Present

Department of Clinical Hematology and Cellular Therapies

Thesis and Research

MD THESIS

Role of urine cytology in diagnosis of urothelial carcinoma with emphasis on atypical category

DM THESIS

Thalidomide as a HbF inducer in E-beta Thalassemia

Paper Presentations

1. Pineal gland tumors- a report of two cases. NEUROPATH CME; 2014

2. Clinicopathologic and radiologic features of thymoma in 10 cases based on 2004 WHO classification- Annual Pathology conference, Goa; 2015
3. Cytopathology of mucoepidermoid carcinoma of salivary glands
4. Clinicopathological Characteristics and Outcome in Patients of Primary CNS Lymphoma Treated with Modified De-Angelis Protocol: An Audit; SOHO 2018
5. Case series of hairy cell leukemia- a rare low-grade B cell lymphoma with unusual presentation. BESHCON 2018
6. MPN with T lymphoblastic lymphoma associated with a novel cytogenetic abnormality- a case report: HEMATOCON 2019
7. Safety and Efficacy of low dose thalidomide in transfusion dependent E-beta Thalassemia. BESHCON 2021
8. BK virus reactivations in patients undergoing Allogeneic stem cell transplant-an audit. APBMT 2022
9. Efficacy and safety of Ponatinib in chronic phase CML- Real world data from a tertiary care center- HEMATOCON 2022
