Consultant, GI-HPB Surgery (Upper GI-Thoracic Unit)	August, 2018- till date	Tata Medical Center, Kolkata

Membership:

Association of Surgeons of India [ASI]
European Society of Surgical Oncology [ESSO]
Indian Society of Peritoneal Surface Malignancies [ISPSM]
The International Society for Disease of the Esophagus [ISDE]

Professional Experience:

I have done my undergraduate medical [MBBS 2007] and post graduate surgical training [MS, 2012] from R G KAR Medical College. As a part of my postgraduate thesis I conducted a study on colon cancer: 'An epidemiological study of colorectal cancer in a tertiary teaching hospital in eastern part of India'. To further my desire to be a GI Surgical Oncologist, I underwent three year fellowship training programme at Tata medical Center (TMC), Kolkata. During this period I had excellent exposure to the management of a wide spectrum of GI and Thoracic malignancies. Later in my role as Consultant, I was able to competently perform many of the procedures I learnt at TMC

After completing my training at Tata Medical Center, I joined as Associate Consultant in GI-HPB Surgical Oncology at **Medica Cancer Hospital, Siliguri**. Being the first GI Surgical Oncologist there, I was uniquely positioned to be able to develop, from the start, a new department. From August 2015 to August 2017 I performed a wide variety of operations for GI malignancies, including Cytoreductive Surgery [CRS] with HIPEC. From September 2017 to July 2018, I had worked full time as Consultant in GI-HPB Surgical Oncology in **Narayana Super-specialty Hospital, Howrah**. Among my achievements there, I am proud to have successfully started a Peritoneal Surface Malignancy programme at Narayana Super-specialty Hospital.
