

CURRICULUM VITAE

Name : **SUMANTRA SARATHI BANERJEE**
Sex : M
Date of Birth : 12-07-1984
Designation : Junior Consultant

Educational Qualifications.

1. Undergraduate : MBBS, Medical College, Kolkata, 2009
2. Post Graduate : MD, Bankura Sammilani Medical College, 2013
3. Speciality : Anaesthesia, Critical care and Pain

Details of Training and Experience

1. **Undergraduate** : I have done my MBBS from Medical College, Kolkata in the year 2008 under West Bengal University of Health Sciences with honours marks in Anatomy and completed my internship from the same institute in 2009.
2. **Post Graduate** : I have done my MD in Anaesthesiology from Bankura Sammilani Medical College from 2010 to 2013. This was done under the same West Bengal University of Health Sciences. Considering a peripheral medical college and large catchment area, I have dealt with a vast number and variety of patients during my post graduation.
3. **Specialty Training** : I have done one year of Senior residency at Jay Prakash Narayan Trauma Centre, AIIMS, New Delhi and enriched myself with knowledge and experience from renowned anaesthesiologists and also learnt to manage trauma patients from anaesthesiologists perspective. That helped me a lot to grow as an anaesthesiologist. Followed which I had done another three years of senior residency at B. R. Singh Hospital, Eastern Railways, Kolkata and was also involved with DNB training in Anaesthesiology in our department at the same time. Then I worked as Clinical associate for one and a half year under the department of Anaesthesia, critical care and pain at Tata Medical Center, Kolkata.

Clinical Appointments : Trained in Comprehensive Cardiac Life Support (CCLS) and also attended and got trained in management of difficult airway, thoracic anaesthesia and use of ultrasound in trauma and regional anaesthesia. Special interest in further work in the field of regional anaesthesia.

Administrative Appointments : Nil so far

Memberships : Indian Society of Anaesthesiologists (ISA), Society of Onco-Anaesthesia and Peri-operative Care (SOAPC)

Research Projects: 1) Pre-procedural USG guidance for Internal Jugular vein cannulation
2) Retrospective analysis of delirium in cancer patients
3) A retrospective analysis of goal directed fluid therapy versus conventional therapy in head and neck free flap surgeries.

Publications : 7

1) Indian Journal of Anaesthesia. 2015 Oct; 59(10): 642–647

Analgesic efficacy of three different dosages of intra-articular morphine in arthroscopic knee surgeries: Randomised double-blind trial.

2) Anesthesia Essays and Researches. 2014 May-Aug; 8(2): 250–252.

Successful emergency airway management in a case of removal of foreign body bronchus in a pediatric patient.

3) Anesthesia Essays and Researches. 2013 Sep-Dec; 7(3): 331–335.

A comparative study of the efficacy of intravenous Paracetamol and Dexmedetomidine on peri-operative hemodynamics and post-operative analgesia for patients undergoing laparoscopic cholecystectomy.

4) Case Reports in Medicine. 2014; 2014: 394920.

Published online 2014 Jul 20.

Anatomic Variation of Subclavian Artery Visualized on Ultrasound-Guided Supraclavicular Brachial Plexus Block.

5) Journal of Evolution of Medical and Dental Sciences. 2015;4(65)11328-11334

A study of the LMA C-TRACH™ guided intubation with special reference to the conventional laryngoscopic cormack and lehane grading system.

6) Indian Journal of Anaesthesia. May 2016;Vol. 60,Issue 5
Post-procedure adhesive arachnoiditis following obstetric spinal anaesthesia

7) Indian Journal of Anaesthesia. 2017;61:1002-8
Effects of intrathecal dexmedetomidine as an additive to low-dose bupivacaine in patients undergoing transurethral resection of prostate

Awards : Nil so far
