

International Speaker

Dr. Suresh Nayar
President Elect AAMP;
University of Alberta, Edmonton,
Canada

National Speakers

Dr. Arjun Krishnadas
Amrita Institute of Medical Sciences &
Research Center, Kochi

Dr. Girish Rao
Mukha Facial Surgery & Dental Implant
Center, Bangalore

Dr. Gunaseelan Rajan
Rajan Dental Institute, Chennai

Dr. Gurkaran Preet Singh
Tata Memorial Hospital, Mumbai

Dr. Manju V.
Amrita Institute of Medical Sciences &
Research Center, Kochi

National Speaker & Hands on Mentor

Dr Sankalp Mittal
Government Dental College, Jaipur

Organising Committee

Department of Dental Oncology & Maxillofacial
Prosthetics and Head & Neck Surgery

Patron: Dr. Pattatheyl Arun
Advisor: Dr. Vikram D. Kekatpure
Organising President: Dr. Kapilla Manikantan
Organising Secretary: Dr. Asif Ahmed
Registrations: Dr. Prateek V. Jain,
Dr. Gurucharan Sahu, Dr. Mutum Sangeeta Devi

22 - 24 May 2026
Tata Medical Center

- Building on the success of IMPACT and IMPACT II, we present IMPACT III
- A focused academic program on implant-based rehabilitation in oral cancer
- Emphasis on rehabilitation of maxillary defects and complex clinical challenges
- Three-day program with lectures and hands-on training
- Practical learning on zygomatic and pterygoid implants using 3D models
- Paper / Poster sessions.

Zygomatic & Pterygoid Implant Placement Hands on in 3D models

Mentor: Dr. Sankalp Mittal

Time	Topic
08:30- 09:00	Registration
09:00–12:00	Lecture
12:00–14:00	Demonstration
14:00–14:30	Lunch
14:30 - 18:00	Hands on Zygomatic & Pterygoid Implants in 3D models

Time	Topic	Speaker
09:00–09:45	Registration	
09:45–10:00	One Patient, One Team: The Power of Multidisciplinary Care in Oral Cancer—From Cure to Rehabilitation	Dr. Pattatheyl Arun
10:00–10:30	Implants After Oral Cancer: Who, When, and How—A Head & Neck Surgeon’s Framework	Dr Kapila Manikantan
10:30–11:00	Zygomatic Implants in Compromised Anatomy: Surgical Landmarks, Safe Trajectories, and Risk-Reduction Pearls	Dr Gunaseelan Rajan
11:00 - 11:30	Pre-rehab planning in oncology patients: Understanding patient selection, diagnostic imaging required.	Dr Gurkaran Preet Singh
11:30–11:45	Tea Break	
11:45-12:15	Reconstruction Meets Rehabilitation: The ZIP Flap (Zygomatic Implant Perforated Flap) for Predictable Onco-Rehab	Dr. Girish Rao
12:15–12:45	Extrasinus vs Intrasinus Zygomatic Implants: Choosing the Approach, Achieving Stability, and Avoiding Sinus/Orbital Complications	Dr Arjun Krishnadas
12:45–13:15	Prosthetic Options Following Extensive Maxillomandibular Ablative Surgery	Dr Manju V.
13:15–13:45	Pterygoid Implants: indications, biomechanics (cantilever reduction), safety zones, and pitfalls	Dr. Sankalp Mittal
13:45–14:00	Asepsis, infection control & biomedical waste management (including NACO protocols)	Dr Prateek Jain
14:00-14:45	Lunch	
14:45–15:30	Outcomes of Implant-Supported Prosthesis Following Oral Squamous Cell Carcinoma Treatment: Institutional Protocols and Review (AIMS, TMH and TMC - 15 mins each)	Dr Manju V. Dr. Gurkaran Preet Singh Dr. Asif Ahmed
15:30–16:30	Paper Presentations (60 min 5 presenters) Each: 10 min presentation + 2 min Q/A	
	Tea Break	
16:30–17:00	Zygomatic Implant Failures: Prevention, Diagnosis, and Step-by-Step Management	Dr Gunaseelan Rajan
17:00–18:00	Panel Discussion From Tumor Board to Function Board: Building the Oral Cancer Rehabilitation Pathway (Early → Interim → Definitive)	Moderator: Dr. Vikram D. Kekatpure

Time	Topic	Speaker
09:00–09:30	Soft tissue in fibular flaps: cosmetic and functional considerations in present day implantology	Dr Suresh Nayar (online)
09:30–10:00	Central & Lateral Jaw Defects: What the Prosthodontist Needs From Reconstruction team to Deliver Predictable Rehabilitation	Dr Gurkaran Preet Singh
10:00–10:30	Prosthetically Driven Fibula Reconstruction: What Plastic Surgeons Can Do to Improve Rehabilitation Outcomes	Dr Amrita Kaur
10:30–10:45	Tea Break	
10:45–11:15	Implant Prosthesis Complications: Fractures, Screw Loosening, Hygiene Failure—How to Prevent and Fix	Dr. Sankalp Mittal
11:15–11:45	VSP in Oncology Rehab: Fibula Reconstruction, Zygomatic Rehabilitation.	Dr. Arjun Krishnadas
11:45–12:15	Custom Reconstruction with Patient-Specific Implants: From Virtual Design to Functional Rehabilitation	Dr Manju V.
12:15–13:15	Symposium	
13:15–13:45	Long-term maintenance and viability in oncology patients: hygiene access, mucositis/peri-implantitis control, recall protocols, patient education	Dr. Girish Rao
13:45-14:45	Lunch	
14:45–15:15	Debate: Motion: “Patient-specific implants (PSI) will replace free flaps for many segmental mandibular defects in the next decade”	Dr Karnav B. Panchal - 10 mins Dr. Arjun Krishnadas - 10 mins
15:15–15:45	Marginal Mandibulectomy and Rehabilitation: Prosthodontic Planning for Function, Occlusion, and Long-Term Stability	Dr. Gurkaran Preet Singh
15:30–16:30	Panel Discussion: Topic: “The hardest cases: flap + implant combinations, limited mouth opening, recurrent disease suspicion, fistula + sinus problems—real case decision-making.”	Moderator: Dr. Pattatheyl Arun
16:30-16:45	Key Takeaways from the meet	
16:45-17:00	Prize Distribution (Paper & Poster Winners) Vote of Thanks	
17:00 onwards	Tea break & End of the Meet
