New Delhi, India

INTERNATIONAL CONFERENCE IN GYNAECOLOGICAL PATHOLOGY

The Department of Pathology, Tata Medical Center, Kolkata (TMCK) is delighted to announce International Conference in Gynaecological Pathology in collaboration with The British Association of Gynaecological Pathologists (BAGP). It is an interactive programme based on lectures interspersed with slide seminars and panel discussions in a hybrid format comprising a combination of virtual and in-person speakers and delegates.

This comprehensive two and a half day conference will enable postgraduate trainees and practising pathologists to recognise updated diagnostic criteria and disease classifications in gynaecological pathology, recognise unusual gynaecological disease entities and apply morphological, immunohistochemical and molecular genetics for diagnosis and differential diagnosis. Multidisciplinary panel discussion will help the pathologists learn the clinical implication when applying new diagnostic knowledge in gynaecological pathology.

We look forward to welcoming you all to the City of Joy, Kolkata. Please reserve your dates and join us for the event.

E-poster presentations will be accepted. The complete programme details will be shared with you all soon.

Please visit our website for further details:
