

All these three courses are under Indian society of critical care Medicine (**ISCCM**), the largest non-profit association of Indian Physicians, Nurses, Physiotherapists and other allied health care professionals involved in the care of the critically ill.

The sole aim of these training programs is to enhance the skills of care providers who are working in the field of Critical Care Medicine so that patient care can be standardized and good quality care can be provided to patients. **These courses are not recognized by Medical Council of India.**

Post Certificate of Training in Critical Care Medicine (CTCCM)

Critical care is an upcoming speciality and presently has a huge shortage of trained dedicated manpower. MBBS doctors are a major workforce in ICU teams. This course has been proposed to impart structured critical care training to MBBS doctors to improve patient management skills.

Eligibility: MBBS or equivalent allopathic medical degree with valid MCI registration.

Course duration: 2 years
